DELCO-LIGHT

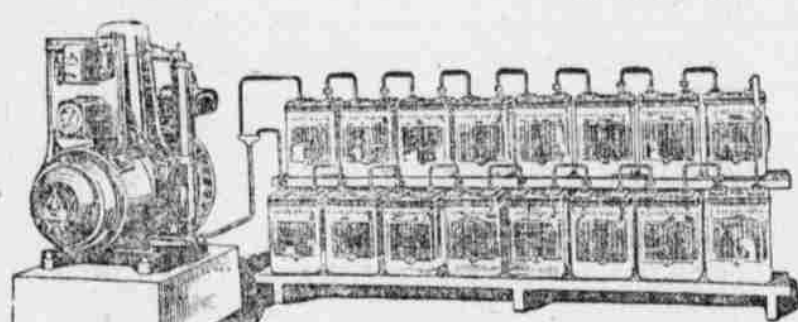

A lighting plant that has proved a satisfaction and pleasure to many. Here is sufficient testimony:

W. G. Goodwin, Montpelier, Vt.

Dear Sir: I haven't cleaned the carbon from the piston and cylinder as yet, and think it needs it. The Delco Light Plant runs like a lily.

I am all alone and have been all winter. It has kept us lighted up all winter, operated the milking machine for twenty cows, night and morning, and separated the milk, all for seven cents per day. It really is among the faithful, as it has been running nearly two years since carbon was cleaned from the piston. When you are out this way sometime, show me how to do the job properly.

Yours respectfully,
H. M. Carpenter.
